Lieutenant Governor Hodges then presents Governor W. Kerr Scott, who in turn presents Governor-elect William B. Umstead, and the oath of office is administered to him by Chief Justice Devin of the Supreme Court.

Governor Umstead delivers the following message.

Mr. President, Mr. Speaker, and Members of the General Assembly of North Carolina:

It is with a mixture of humility and pride that I assume the office of Governor of North Carolina. Within the powers and sovereignty of the people of the State there is no greater honor, and with it there goes a responsibility of which I am keenly aware. With a proper reverence for the past, confidence in the present, and faith in tomorrow, I dedicate myself to the discharge of this high trust.

Civilization never stands still. It either moves forward or backward. In its inescapable tide it carries to and fro the failures, accomplishments, faith, hopes and aspirations of all mankind. It has been said that civilization is a covenant between the dead, the living and the yet unborn. Those who are selected by the people to manage and direct their affairs assume the obligation of keeping that covenant.

Today we look with pride and deep appreciation upon the record made by those who have preceded us in this Commonwealth, and to them we give thanks. Due to their sacrifices, courage and far-sightedness, ours is

a wonderful heritage. Our obligation to them and to those yet unborn requires that we in this hour use what we have in such manner as to keep the covenant. This requires complete dedication by those who have been selected to pilot the course of our Government.

To you and the people of North Carolina, I express my profound thanks and appreciation for this high honor. Let us remember that no one should be permitted to affect selfishly, adversely the best interests of our people, and that what affects one part of our State affects all of the State. I seek your sympathetic understanding, and want your advice, help and counsel. Let us work together for the State we all love. With confidence in your patriotic devotion to the task ahead of us, and the knowledge that in the life stream of North Carolina there is a strength which endureth and a determination which cannot be subdued, I enter upon the office of Governor, and I now submit to you and to the people of the State some of my views and recommendations.

PUBLIC EDUCATION

It has been said that "The History of civilization is being daily written, to a large degree, in the classrooms of the world." The truth of this statement is fully understood by all of us. We are justly proud of the progress we have made in public education. There is still much to do. Although North Carolina ranks forty-fourth among the States in per capita annual income, it ranks thirtieth among the States in the amount of money spent for public education. This means that we are determined to have, and are willing to make sacrifices for, the best system of public schools we can possibly afford. Until we are able to increase the per capita income of our people, we shall necessarily be limited in the amount of money we can spend for education.

Some months ago I advocated the reduction of the teacher load from 31.7 to 30. The State Board of Education, out of unexpended funds, arranged to make this reduction during the present school term. I recommend that the General Assembly continue this reduction during the next biennium. We should further reduce the teacher load as rapidly as finances will permit.

I recommend that sufficient funds be provided to employ properly qualified attendance personnel sufficient in number to enforce effectively the school attendance law.

That sufficient funds be made available to provide such additional clerical assistance, services, and supplies as may be found necessary due to the growth of our school system;

That the transportation of our children be made as safe as humanly possible. That every effort be made to improve the inspection requirements now employed, and that the driver training and safety education classes be made available to high school boys and girls throughout the State.

I recommend a ten per cent salary increase for school teachers and other school personnel, retroactive to July 1, 1952, and that as much increase in the salaries of public school teachers be made during the next biennium as can be provided within available revenues.

The proper agencies should thoroughly study the possibility of a more comprehensive program of vocational education in public schools. Such a

program will no doubt involve long-range planning, and in my opinion now is the time to begin such planning. We should continue to encourage the program of agricultural vocational education.

We should continue the physical examination of children to determine defects which, unless remedied in time, result in handicaps through life, and provision should be made to provide means for correcting the defects.

There is a shortage of elementary teachers in North Carolina and in most sections of the country. It is my belief that this shortage is not due entirely to our salary scale. I am told that the requirements and regulations for elementary teachers are so rigorous and complicated as to deter young people from seeking to become elementary teachers, and in some instances make it exceedingly difficult for them to do so. If this is true, it should be remedied at once. The General Assembly, the State Board of Education and the State Department of Public Instruction should give immediate and thorough consideration to this problem and take such action as may be necessary to solve it.

While admitting the shortcomings in our school system, I feel that we should devote less time and publicity to emphasizing its weakest points and more time and publicity to emphasizing its strongest points. It is not necessary always to dwell on the worst in order to move steadily toward the attainment of the best.

Since 1933, when the State took over the operation of our public schools, the local school units have gradually lost control. There should be some proper way to restore some degree of local control without injuring our State system. I think that a fuller recognition of local school units would strengthen our school system.

The question of further consolidation of schools is largely one of administration. However, it can be carried too far. The human element should be considered, and if the State Board of Education does not now have sufficient discretionary power to enable it, in any given situation, to consider the human element, such power should be given it by the enactment of proper amendments to the school law.

I suggest that the General Assembly provide for the codification of the State School Law in order that it may be readily usable by those who need it.

We have constructed in North Carolina a great many school buildings during the past few years. The need has not been met. Our school population is rapidly increasing, and in order to protect and preserve our public school system we must supply the necessary facilities. Under our State Constitution we must provide equal school facilities for our children, without discrimination. This, in my judgment, can be done only by grants in aid to the counties which are unable to provide such facilities. I, therefore, recommend that the proper committees of the General Assembly, as soon as practicable, conduct hearings to determine the amount of money necessary to provide such aid, and that it submit to the people of the State a bond issue to secure funds to provide the necessary aid to the counties for the construction of school facilities for all of our children, and that the funds be granted by the State Board of Education to the counties on the basis of need and the ability to pay. This is not intended to relieve the counties of the primary responsibility to provide adequate school facilities, without discrimination.

INSTITUTIONS OF HIGHER LEARNING

North Carolina is justly proud of its institutions of higher learning. They are essential to our intellectual, social, economic, cultural and spiritual development, and merit the continued support of our people. Every effort should be made to see that these institutions understand the needs of the State, and that they seek always to meet these needs.

During the past few years there has been a tremendous building program for our institutions of higher learning, and other permanent improvements are now and will continue to be needed. However, the lack of available funds makes any large scale building program for these institutions impossible at this time. The buildings must be maintained and repaired. This alone is a large program, and must be done for the preservation of the investment already made.

SCHOOLS FOR THE BLIND AND DEAF

Our schools for the blind and deaf serve a worthy purpose, are doing splendid work, and should be encouraged in their efforts.

EDUCATIONAL TELEVISION

Some months ago the Federal Communications Commission allocated to, or reserved for, North Carolina eight television channels for educational purposes. Sufficient time has not elapsed since the perfection of this modern method of communication to determine its probable effect in the field of individual, group, or mass education. Certainly its importance is sufficient to place upon the State, through its proper officials, the serious obligation of a thorough investigation, to the end that we may avoid, if possible, becoming involved in an unwise venture, if it is determined to be that; and, in order that we may take full advantage of an opportunity in the field of education, if it is determined to be wise and proper.

In this matter we shall be plowing in new ground, and it will require the talents, the time and the wisdom of able men and women to determine what course we should follow. I recommend that the General Assembly authorize a Commission to be appointed by the Governor to study this important matter and report its findings to this Session of the General Assembly.

ROADS

Since 1921 we have developed a state-wide system of public roads in which there are some 66,000 miles, including about 26,000 miles of hard-surfaced roads.

Good roads are a modern necessity. On our main roads the traffic load is large and rapidly will become larger. Our industrial and agricultural output will increase year by year. Our tourist trade depends largely on good primary roads.

Many of our main roads are in very bad condition and are being worn out as rapidly as we are building them. In addition to the overall traffic load, the tremendous increase in heavy commercial traffic is taking its toll and adding tremendously to the cost of maintenance of our primary roads.

We must continue to maintain, improve and build roads. It is a task which is never finished. We should strive to make every road in North

Carolina usable by motor vehicles at all times. We must maintain our entire road system and the 200 million dollar secondary road program will place upon the State an unknown cost of maintenance, depending in a large measure upon the durability of these roads.

There will not be, within the foreseeable future, from existing gasoline revenues, after the cost of maintenance and other expenses are deducted, adequate funds left with which to build primary roads. I, therefore, recommend that the General Assembly look into our entire road situation and determine, if possible, a long-range primary road building program, and that it determine what, if anything should be done to increase our current revenue by a more equitable distribution of the cost of the use of our highways, and further, consider what measures, if any, should now be taken to protect our highways against usages which contribute to their rapid deterioration.

Ours is a State highway system, and we should endeavor to restore unified control and at the same time try to bring highway administration closer to the people.

As I have stated, there are some 66,000 miles of roads under the jurisdiction of the Highway and Public Works Commission, of which about 26,000 miles are hard-surfaced. We now have ten Highway Divisions and ten Commissioners. Ten Commissioners, on a part-time, per diem basis, cannot now properly look after our expanded road system. I, therefore, recommend that the General Assembly amend existing law to increase the number of Divisions and Commissioners to fifteen. In my judgment this would make for efficiency and economy.

HIGHWAY SAFETY

In the final analysis, the reduction of the slaughter and injury of our citizens and the destruction of property on our highways depends in a large measure upon the citizenship of the State. When fully aroused, the people of North Carolina can do much to make our highways safer. The General Assembly should seriously consider this gravely important matter, and I recommend;

That it enact a common sense measure providing effective mechanical inspection of all motor vehicles operating in North Carolina;

That a drivers' training program be established in every public High School in the State;

That it be made unlawful for any person to change or alter the manufacturers' specifications of the motor or other mechanical parts, features of design of any motor vehicle with the purpose or intent of increasing its speed, and that any vehicle so altered or changed shall not be allowed to operate on the streets or highways of the State;

That the hit-and-run statute be amended to provide that any person who collides with a motor vehicle parked or unattended on the streets or highways of North Carolina shall be guilty of a misdemeanor, unless he immediately notifies the owner of the car or the police authorities of the incident.

It is well known that in many instances traffic laws are not properly enforced. I call upon the State Highway Patrol, all Peace Officers, and the Courts for an effective enforcement of such laws.

AGRICULTURE

Agriculture is still the pride of our State. More people work on farms in North Carolina than in any State in the Union—about one-third of our population. The cash income from farm crops is now about \$900,000,000 per year, and is an important part of our State's economy.

The improvement in agriculture during the past fifteen years is obvious on every hand. We must continue this improvement and endeavor to raise the average per capita income of the people working on our farms in North Carolina. The large number of agricultural workers accounts in a large measure for our low per capita income. Contrary to the views of many people, the majority of those who make a living on the farm are not getting rich. The Federal Farm Program, the Extension Service, State College, the Experiment Stations, Vocational Agriculture Teachers, teachers of Home Economics, the State Department of Agriculture, the Rural Electrification Authority, the Production Marketing Administration, the Forest Service, the Soil Conservation Service, the Farm Home Administration, the Farm Credit Administration, and other agricultural agencies make a mighty team for the advancement and improvement of agriculture in North Carolina. I commend the Farm Bureau and the Grange for their splendid efforts for agriculture. It shall be my purpose to work with all of these agencies, and I recommend and suggest the following:

We should have a cooperative movement on the part of the appropriate agencies, the farmers, cities and towns and all of our people, for a unified and effective effort to stop erosion of soil.

We need more improved pastureland, more dairy and beef cattle and more poultry.

There should be a greater utilization of our forest resources and a comprehensive and effective forestry program, including adequate fire protection, and a wider use of recommended forest improvement practices.

We need more effective methods of protecting and using our water resources and our wildlife.

We need additional processing plants for agricultural products, and we should develop better and expanding marketing facilities for our poultry, fruit, vegetables and livestock.

Every effort should be made to eliminate such inequalities in freight rates affecting agriculture in North Carolina as may now exist.

We should expand our program of agricultural research. My belief in the value of agricultural research is of long standing, and I will support such a program. We have learned from industry that research is essential to progress. This is true of agriculture also. A greater effort should be made to carry to the farmers the splendid results of our research program.

Every effort should be made by the State and every agency involved, and by all of our people, to conserve, enrich and properly use God's good earth, which with its water, trees and grasses, has supported all the generations before us, to the end that it will be able to continue to support, feed and clothe the generations yet to come.

CONSERVATION AND DEVELOPMENT

The words "Conservation and Development" include many things so important to the development of North Carolina.

One of the most important things at this time is to bring to our State new industry and new types of industry. We should encourage also the expansion of industries which we now have. Large segments of industry are now moving South, and North Carolina should make every possible effort to get its share. This would provide employment for thousands of our people, and would increase our per capita income, and our revenues. It would enable us to keep at home thousands of young men and women, educated at the expense of the State, who leave our borders each year to find opportunities elsewhere.

If we continue to improve the State services now being rendered, it will be necessary to have more tax dollars. In my opinion, it is better to obtain new taxpayers than to increase taxes on the taxpayers we now have. In this effort we shall need the assistance of all of our people, and particularly in the effort to create a friendly and wholesome atmosphere which will appeal to those we shall endeavor to bring here. I shall seek the active assistance of a substantial number of our citizens to supplement the efforts of the existing State agencies in this vitally important matter.

We must encourage the further development of our seafood industry. I am told that we have actually lost ground in this industry in recent years. With our long shoreline and our bountiful and diversified supply of seafood, it should be possible for our fishermen in larger numbers to find it increasingly profitable to again "go down to the sea in ships." I recommend that the General Assembly carefully examine the laws pertaining to our fishing industry and make such changes as may be necessary.

We have now completed two fine ports, one at Morehead City and one at Wilmington. I have been interested in these projects for years. However, the port facilities as such cannot, and will not, bring to us a substantial export and import trade. This trade must be developed. This will require skilled specialists and considerable time. I recommend that the General Assembly make it possible to pay to the necessary skilled specialists salaries in line with similar types of work at other ports so that these gateways to the shipping lanes of the world may be profitable and important in the development of our economy. Furthermore, I recommend that the Ports Authority Act be re-examined and amended so as to make possible the development of small inland ports.

We have a splendid inland waterway which runs through our State. All along its rambling course, opportunities exist which should be developed.

Our State is rich in mineral resources, and the General Assembly should take such action as may be necessary to encourage the further development of these resources.

A substantial amount of income in North Carolina is derived from our tourist trade. Our recreational and scenic facilities are outstanding. Our hunting and fishing areas are the equal of those to be found anywhere. Our historical points are sufficient to arouse the interest of all lovers of our State and National heritage. Our outdoor historical pageants are unsurpassed in the Nation. Our beaches, our mountains, our sandhills and our Piedmont offer to tourists practically every known form of recreation. In this matter of bringing additional tourists to our State, every town, city and county can play an important part. We must provide them with

clean, comfortable and pleasant accommodations at reasonable prices. Courtesy and kindness should be extended to every tourist. I invite the co-operation of every citizen in this important matter.

I am glad to call attention to the splendid contribution of the North Carolina Recreation Commission. It is seeking to aid the various communities in our State in the more effective use of recreational facilities and is helping to educate our people to use some of their leisure time in forms of recreation which contribute to the enrichment of their lives. This program can also make a contribution toward our efforts to bring additional tourists to our State and to keep them here a while longer.

The topographic mapping program now underway should be continued because of its value to conservation, agriculture and road-building.

The last session of the General Assembly passed an Act dealing with stream pollution. Some progress has been made, but it has been rather slow. In many places in the Inland Waterway, the water is polluted. Attention should be given to this. I suggest that such other and further steps be taken as may be necessary, in keeping with wise and fair procedures, to avoid and eliminate stream pollution in North Carolina.

The program of advertising North Carolina has been a good investment. It should be continued and enlarged, and additional funds should be provided for this purpose.

HEALTH

Our Public Health Department has made a great contribution to our State. Its work must be encouraged and continued within the limits of available revenues.

In 1945 the General Assembly initiated a unique system of medical care, involving all the necessary factors without violating any of our basic democratic principles. It included a co-ordinated and balanced system of medical training, teaching and healing. Under the Medical Care Commission this program has proceeded orderly and efficiently. Needy sick have been assisted. Many hospitals have been constructed. At Chapel Hill, the Health Center, with its Teaching Hospital has been established. This program is of basic importance, and must be maintained and operated in such manner as to translate the original concept of the Medical Care Plan into a reality of service to people in all parts of our State. It is, I hope, an effective answer to the advocates of Socialized Medicine, to which I am strongly opposed.

The splendid results being accomplished by the State Tuberculosis Sanatoriums, the Orthopaedic Hospital, and the Hospital for Cerebral Palsy patients, are outstanding. These institutions should have the continued sympathetic support of our State.

STATE INSTITUTIONS FOR THE MENTALLY ILL

One of our greatest obligations is to our mentally ill. During the last few years great progress has been made in their treatment and care. Much remains to be done, and continued emphasis should be placed upon the curing of our mentally ill.

We call the institution at Kinston The Caswell Training School. It is not now and has never been a "training school." It is and has been a den-

tion home for feeble-minded children, who grow into feeble-minded men and women, and there they stay through the years. There has never been a place which has even been called a training school for feeble-minded children of the Negro race.

There is not sufficient room in our institutions for the adults who need attention. The need is so urgent that it can be met adequately only by the proceeds from a bond issue. I recommend, therefore, that the General Assembly submit to the people of the State a bond issue in an amount sufficient to provide funds for not only training schools for the feeble-minded white and Negro children of our State, but also for the construction and equipment of sufficient facilities to meet the needs of adults now and for some years to come. We have worked at it in piece-meal fashion long enough. We must make every effort to cure both children and adults, where such is within the capacity of medical science, and sufficient trained personnel must be provided. These people have no spokesman except those whose hearts have been touched by the condition of those affected by this program.

Along with the establishment of training schools for feeble-minded children, proper provisions should be made for a co-ordinated study of the causes of feeble-mindedness and to seek the most practical and best known methods of preventing it.

WELFARE

Regardless of the degree of prosperity we may attain, there are always those among us who need assistance. The welfare program in North Carolina is broad and comprehensive and is important to many of our people. It is an expensive item in our budget. Ever-increasing numbers on the welfare rolls, with the greatly increased costs, make it mandatory that those charged with the administration of this program carefully investigate each case involved. Special emphasis and attention should be given to the rehabilitation of those who obtain assistance. There should be close co-operation with the Employment Service. We should not take pride in the number of people on our relief rolls. We should take pride in the number we can properly remove from our relief rolls. Whether the money comes from county, city, State or Federal Government, it should be carefully used and directed toward the rebuilding of useful citizens.

REORGANIZATION OF STATE GOVERNMENT

Much has been said and written about the reorganization of State Government in North Carolina and elsewhere. Many states have studied this problem with satisfactory results. Every effort should be made, looking to the efficient and economical administration of each function of the State Government.

As our population has increased and as more State services have become necessary, from time to time additional State agencies have been created, frequently operating as separate units. In many instances old units of the Government have greatly expanded. Our Government has become a big business, reaching into all parts of the State. I am not prepared to offer a plan of reorganization. An effective plan will require serious, careful and extended study. I, therefore, recommend that the

General Assembly authorize a Commission to be appointed by the Governor to study this matter and report its findings and recommendations to the Governor by December 1, 1954. The Institute of Government is now studying this problem and its studies will be made available to the Commission.

PRISON SYSTEM

North Carolina is one of the few states where the Prison System is under the control of the Public Works and Highway Department. In recent months and years there has been much criticism of the administration of our Prison System. Every effort should be made to rehabilitate and save from a life of crime every offender sentenced to prison. At the same time it should be understood that confirmed, hardened criminals cannot be coddled . . . that discipline and order in a prison system are essential and must be maintained at any cost. It is perhaps desirable to separate the Prison System from the Public Works and Highway Commission. However, there are difficult administrative and financial problems to overcome which will require careful study and wise planning. If separation was made without such study and planning, the situation would probably be worse than it is now. I, therefore, recommend that this matter be thoroughly considered by the Commission which has been recommended and be included in its report.

PAROLES COMMISSION

I think that people generally appreciate the need for, and the value of, our Parole System. The number of prisoners has grown to the point where it is impossible for one Commissioner to conduct adequately the affairs of the parole office. I, therefore, recommend that the General Assembly rewrite the statute dealing with the parole system, make such changes as it deems necessary for its improvement, and create a Paroles Commission consisting of three Commissioners, and provide that one shall be designated as Chairman and that they be appointed by, and hold office subject to the will of, the Governor.

It has been suggested that the Probation Department should be combined with the Paroles Department. I am not prepared to make any recommendation as to this. However, the matter should be given careful study by the Commission which has been recommended and be included in its report.

STATE EMPLOYEES

There are now approximately 66,000 people on the payroll of the State. In most instances they are conscientious and hard-working, and I am proud of them. They have the right to expect of the State a fair wage and proper treatment. The State has a right to expect from them an honest day's work for a day's pay. Dissatisfied employees who constantly engage in unjustified complaining would render themselves and the State a good service by seeking employment elsewhere.

Due to the increase in the cost of living, I have heretofore announced that I would favor a ten per cent increase in the salary and wages of all State employees, retroactive to July 1, 1952, and now recommend that this be done.

I should like for all those who work for North Carolina, however humble their job may be, to be proud that they work for the State. I should like for each of them to be courteous, not only to their fellow citizens, but also to all those who may come into or pass through our State from elsewhere. I should like for them to feel that they are a part of the State Government, and I seek their sympathetic understanding of the problems of our State, and their assistance in making it a better place in which to live.

When the State Retirement System was initiated, many people had been working for the State for years who, because of age, had to be retired soon after its beginning. Many of these draw relatively small amounts and are frequently referred to as "hardship cases." I recommend that all those who had been in the employ of the State for not less than twenty years at the time the Retirement System was created, now receiving retirement benefits, be paid not less than \$50.00 per month. This will not remove all the hardships and inequities, but in my judgment this much should be done.

PUBLIC UTILITIES

The importance of public utilities is recognized by all. Electric power, telephones, railroads, motor freight and passenger carriers, and other public utilities are essential to our growth and development.

Due to the efforts of the R. E. A. and private power companies, about 90 per cent of the farms and rural establishments in North Carolina have electricity. There is a growing demand and need for telephones in our rural areas. It will be my purpose to encourage to the fullest extent the continuation of both of these splendid programs. They are not State functions, and never have been. The State has never furnished any power and never installed a telephone. It can, through the Utilities Commission, in proper cases, see that those who hold franchises furnish those utilities. In these matters I shall seek the co-operation of both private industry and our Federal Government.

The public has come to depend upon the service rendered by railroads and motor freight and passenger carriers. All of these are essential to the continued growth and development of our State. The holder of a franchise assumes a public obligation which should be fulfilled, and they subject themselves to governmental regulation and control, and this should be fair to them and to the public.

The increased industrial expansion of North Carolina will require an abundance of electric power. The power companies of this State have greatly increased the output of their plants during the past years. The Federal Government also has made additional electric power available. Every effort will be made to have power in sufficient quantities to meet the requirements of the people and of our expanding industry.

The work of the Utilities Commission has increased, both in volume and importance. It should be provided with sufficient clerical and expert assistance to enable it to render the service expected of it.

LABOR

The relation between those who work in, and those who manage and control our industries generally has been good. I congratulate the State Department of Labor for its effective work in the field of Industrial Relations. Employers and employees are mutually dependent upon each other. The less friction there is, the better it is for both. The importance and the right of collective bargaining is fully recognized, and it should be used to settle any difficulties which may arise, and the rights of all parties should be carefully protected and preserved.

Every citizen of North Carolina has the right to work and to go to work wherever his job may be. Every person restrained of his liberty is entitled to a remedy. While I am Governor of this State I shall endeavor to see that the laws are enforced which protect every citizen in his right to go to his job unmolested by anyone.

We have a Federal Wage and Hour Law which provides for minimum wages and maximum hours. This law applies only to employees engaged in interstate commerce, as that term is now liberally construed. There are many industrial and service employees in North Carolina who do not come within the provisions of the Federal Wage and Hour Law. In my opinion it would be beneficial to the State to have a minimum wage law and, therefore, I recommend that the General Assembly enact such a law, bearing in mind that it should be reasonable and fair to employees, employers, and to the public. It should provide for proper and necessary exemptions and safeguards.

I should like to have the help of industrial leaders and industrial workers in a broad effort to bring additional industry to North Carolina. In this, the relationship and record of co-operation between these two groups will play an important part.

COURTS

The profound respect which the people have always had for our courts and judicial system has been a powerful factor for good in the life of our State.

Our population increased from about 2½ millions in 1920 to over 4 million in 1950, and some of our towns have experienced rapid growth. In spite of this increase of about 60 per cent in population, there has been only one Judicial District added since 1913. It is true that in the thirties provision was made for the appointment of eight Special Judges. Even with the Special Judges, the work of the Superior Courts has grown until it is beyond the capacity of our Judges to properly perform their duties. In my judgment, no Superior Court Judge should be required to hold more than forty weeks of court in any calendar year. Forty weeks of court, plus the many other and important judicial duties which have to be performed, together with the fact that every judge needs time to study the constant changes in the law, will place upon them a heavy work load. It has been suggested that additional Superior Court Districts be created. This would be difficult from a practical and political standpoint. Furthermore, there appears to be no pressing need for additional solicitors. The need for additional judges is imperative. I, therefore, recommend that the General Assembly provide for additional regular Superior Court Judges.

REFERENDUM

Since the Act was first passed legalizing the sale of intoxicating liquor in those counties in North Carolina voting in favor of it, there has existed a wide difference of opinion on this question. In the minds of many people it seems to have come to be a question of revenue. Even though the amount of money collected in taxes from the sale of intoxicating liquor in North Carolina has come to constitute an important part of our revenue, the issue should not be disposed of on the basis of taxation. It is a moral question and should be treated as such.

Prior to 1948 and in that year, and again in 1952, I publicly stated that I favored a referendum on the liquor question. I now favor it, and therefore, recommend that the General Assembly submit this issue to the people of North Carolina.

REDISTRICTING FOR SENATORS AND REPRESENTATIVES

The Constitution of North Carolina declares that the General Assembly, at the first session after the return of every enumeration by order of Congress, shall redistrict the State so that each Senate District shall contain, as nearly as may be, an equal number of inhabitants. It also provides for the re-allocation of certain members of the State House of Representatives. The 1951 General Assembly did not comply with this requirement. I, therefore, recommend that this General Assembly carry out the clear mandate of the Constitution of North Carolina.

TAXES

The General Assembly of 1951 appropriated from the General Fund about 175 million dollars for this fiscal year. If the ten per cent additional pay is granted to all State employees, retroactive to July 1, 1952, as recommended, it will add about 13 million dollars to the General Fund expenditures for this fiscal year, making a total of about 188 million dollars. This is ten million more than was collected during the last fiscal year, and about six million more than the estimate for this year. It is within about four million of the estimated revenue for the first year of the next biennium, and within about six million of the estimate for the second year. In other words, appropriations about equal revenues, with no provision for normal increases in existing State services, additional children attending school, reasonable increase in salaries of public school teachers, or for other purposes. Some of these needs should be met.

Federal taxes are high and burdensome, and our State taxes are relatively high in comparison with adjoining states. I would consider new taxes or increased rates unwise and detrimental to the further development of our State. We must operate on a balanced budget to preserve our credit and standing.

If the General Assembly finds that a realistic estimate of revenues for the next biennium will not be sufficient to meet properly the essential needs of the State, including a reasonable increase for our teachers, then instead of new taxes or increased rates, I suggest that the schedule of exemptions under the Sales Tax be revised.

CONCLUSION

There are other matters which I shall, no doubt, desire to present for your consideration later in the session. In these and all other things which merit our attention I seek your sympathetic co-operation. I shall not forget that you have been elected by the people in your respective counties and your duty to them. I know, too, that you will remember that you represent the entire State, also. All that we do should be motivated by a desire to achieve in our State a higher level of intellectual, cultural, economic and spiritual attainment.

Every administration from Governor Aycock to Governor Scott, inclusive, has made substantial contributions to the continued development of our commonwealth. The patriotic members of the General Assemblies through the years, with wisdom and courage, and in spite of all difficulties, have wisely and sanely builded. Near the beginning of the second fifty years of the century, we are in a position to take full advantage of the combined contributions which have heretofore been made. We have the talent and the tools. This is an hour of great responsibility for you and for me. I have complete confidence in your patriotic devotion to North Carolina. Ahead of us there will be new and unpredictable problems. Let us not be afraid. Let us meet with a courage that is characteristic of our people the uncertainties of a swiftly moving future.

The processes of Government must meet changing conditions and when new problems arise, we must find solutions without violating our fundamental principles. Let us see to it that North Carolina remains a land of opportunity and adventure. Let us discourage, always, the idea that any form of security is an adequate substitute for opportunity. Let us rekindle in the hearts of the citizens of the State a passion for individual liberty under the law.

If we plow deep into the soil and search deep into the soul of North Carolina, we can say, amidst the storms which may come, "In every high and stormy gale, my anchor holds within the vale."

If we co-operate and work together, without dissention but with understanding and in harmony, for the best interest of the State, we can and will attain marvelous advancement in the days ahead.

Relying upon the guidance and direction of Divine Providence, I now dedicate myself, and invite you to dedicate yourselves to the service of North Carolina for a Better Tomorrow.

The business for which the Joint Session convened, having been accomplished, upon the motion of Senator Bailey, the Joint Session is dissolved, and pursuant to the motion heretofore made by Senator Rankin at the morning Session, the Senate stands adjourned to meet tomorrow morning at 10 o'clock.

THIRD DAY

SENATE CHAMBER,
Friday, January 9, 1953.

MESSAGE FROM THE GOVERNOR

The following message is received from His Excellency, Governor William B. Umstead:

Thursday, February 12, 1953.

Mr. President, Mr. Speaker and Members of the General Assembly:

I am informed that there has been considerable discussion as to whether or not a separate bill should be introduced authorizing immediate payment of the ten per cent salary increase, retroactive to July 1, 1952, and the press has recently published an article to the effect that such bill was being contemplated and would probably be introduced within the next day or two.

In order that all State employees and members of the General Assembly may fully understand the situation, I shall appreciate it if you will read this letter so that it may be fully publicised throughout the State.

There is in the Budget Appropriation Bill, which is now under consideration by the Appropriation Committee, provision for this ten per cent retroactive increase and I feel confident that the bill will be enacted without this provision being changed. The amount of the increase for the current year is exactly in accordance with the recommendations I have made. However, Section 143-15 of the General Statutes (this being a part of the Executive Budget Act) reads as follows:

"The provisions of this article shall continue to be the legislative policy with reference to the making of appropriations and shall be treated as

rules of both branches of the General Assembly until and unless the same may be changed by the General Assembly either by express enactment or by rule adopted by either branch of the General Assembly.

"The General Assembly may reduce or strike out such item in the Budget Appropriation Bill as it may deem to be to the interest of the public service, but neither House shall consider further or special appropriations until the Budget Appropriation Bill shall have been enacted in whole or in part or rejected, unless the Governor shall submit and recommend an emergency appropriation bill or emergency appropriations bill, which may be amended in the manner set out herein, and such emergency appropriation bill, or bills when enacted, shall continue in force only until the Budget Appropriation Bill shall become effective, unless otherwise provided by the General Assembly."

This means, of course, that neither House of the General Assembly should consider any special appropriations until the Budget Appropriation Bill shall have been enacted in whole or in part or rejected, unless the Governor shall submit and recommend an emergency appropriation bill. A salary increase under the circumstances now existing cannot, in my opinion, be construed as an "emergency appropriation bill." While I would like to see this ten per cent increase paid to all employees at the earliest possible date, I could not, of course, ask the Appropriation Committee to proceed in a manner contrary to law, and I feel that the employees who are to be the beneficiaries of this increase and the General Assembly will wholeheartedly agree with me in this respect.

Sincerely yours,

WILLIAM B. UMSTEAD, *Governor.*

Mr. President, Mr. Speaker and Members of the General Assembly:

For your consideration I herewith transmit my views concerning The Budget Report for the coming biennium.

In compliance with the Public Laws of 1929, Chapter 100, you have already received The Budget Report of the Director of the Budget and the Advisory Budget Commission together with two appropriation bills referred to in The Budget Report.

The Budget Report was signed by the Director of the Budget and all the members of the Commission. They gave careful consideration to the requests of the many institutions and agencies of the State and apportioned the money in accordance with their best judgment. I commend them for their unselfish and devoted service in behalf of the State of North Carolina.

It was not my privilege to attend all the hearings before the Commission nor to be present when the estimates were determined, thus, you will understand that this budget is not the work of this administration, and that it is my duty to advise you of changes which I deem necessary.

I recommend that there be included in the Maintenance Appropriation Bill:

Some additional pay for public school teachers in addition to the ten per cent increase now in the bill;

Funds to employ attendance officers sufficient in number to enforce effectively the school attendance law, and for such additional clerical assistance, services and supplies as may be necessary due to the growth of our school system;

Necessary funds for driver training and safety education classes in the high schools throughout the State;

Additional funds for vocational education and for the operation of the office of the State Superintendent of Public Instruction;

Funds for the payment of at least \$50 per month to those employees who had been in the employ of the State for not less than twenty years at the time the Retirement System went into effect and who are now receiving retirement payments;

Additional funds for the operation of the mental institutions. This is absolutely necessary, both from a humanitarian standpoint and from the standpoint of saving the State tremendous amounts of money in the years to come;

Additional money for the operation of the North Carolina Ports Authority. Unless import and export trade is developed at the Morehead and Wilmington ports, there will continue to be annual deficits which will have to be paid by the State. To develop this trade, skilled personnel and advertising are absolutely necessary;

Funds for making an engineering study for the development and utilization of inland ports and waterways in Eastern North Carolina;

Such additional funds as may be necessary to carry on essential agricultural research and for an effective forestry program, including adequate fire protection;

Funds for additional revenue agents, auditors and necessary personnel required by the State Department of Revenue;

Such additional funds as may be necessary to effectively carry on the State program with reference to stream pollution.

There are other important items which have been requested that deserve your careful consideration.

CASH OPERATING FUND

I call your attention to the Cash Operating Fund of about \$17½ million in the Appropriation Bill. This is less than 5% of the General Fund appropriations already recommended for the next two years. In my judgment, this fund is essential, in view of the uncertainty of future conditions. In addition to the wisdom of having money available at all times to meet the obligations of the State, this fund is a guarantee, to the extent of the amount involved, that the teachers and all other State employees will receive their pay in full and on time, and that all the functions of the State Government can continue without interruption.

FISCAL SITUATION

No amendments to the Revenue Bill were recommended by the Advisory Budget Commission. It is, therefore, necessary for me to present my views on the fiscal policy of the State for the next two years.

We are under legal compulsion to operate under a balanced budget. Such General Fund surplus now anticipated to be available on June 30, 1953 has been accounted for in the recommendations of the Advisory Budget Commission and incorporated in the Appropriation Bills; therefore, appropriations for the next biennium must be within the limits of available revenue. In my opinion, under present conditions, the estimates of anticipated revenue under the present tax structure for the next biennium are realistic and as high as we can safely go.

PUBLIC SCHOOL FUNDS

We have constructed in North Carolina many school buildings during the past few years. The need has not yet been met. Our school population is rapidly increasing, and in order to protect and preserve our public school system we must aid in providing the necessary facilities. Under the provisions of our State Constitution and the decisions of the courts, we must provide equal school facilities for the children of North Carolina, without discrimination. After careful consideration I recommend that a bond issue be submitted to the people in the sum of \$50 million for grants in aid to our school units, and that a sound formula be worked out for its distribution which will be fair and at the same time meet the requirements of need and ability to pay. This amount may not be sufficient to provide all the facilities that are necessary; however, I believe it is as much as can be expended wisely during the next two years and, if properly used, will no doubt result in the expenditure of large additional sums by the counties and towns of our State to provide school facilities. I emphasize that this proposal for grants in aid to the counties is not intended to relieve the counties of their primary responsibility to provide adequate school facilities, without discrimination.

MENTAL INSTITUTIONS

I have heretofore stated that adequate funds are not available to provide training schools for feeble minded white and Negro children, nor do we have money available to construct necessary facilities at the various mental institutions.

I have carefully investigated these needs and from the best information available to me the sum of \$22 million will be required to provide the necessary facilities. I, therefore, recommend that the General Assembly submit a bond issue to the people for this amount. I have had prepared a list of the necessary facilities and the estimated cost to be provided by funds from this bond issue, a copy of which list is attached hereto for your examination and consideration. I am recommending about a million dollars less than the total estimated cost.

INSTITUTIONAL BUILDING BONDS

I stated in my message to the General Assembly on January 8 that the lack of available funds would prohibit any large-scale building program at the institutions of higher learning and other State institutions at this time. However, after careful investigation I have found that there are some pressing and essential needs which should be provided now. The total cost of these needs will approximate \$15 million. I, therefore, recommend that bonds in this amount be authorized by the General Assembly for the purpose of meeting these essential needs, and I submit herewith a list of the items, showing the estimated cost, for your examination and consideration.

Included in The Budget Permanent Improvement Appropriation Bill are items which total approximately \$5,700,000 for improvements at the mental institutions. These items have been included in the recommended bond program for mental institutions. Therefore, if you approve the bond issue for mental institutions, you will have the sum of \$5,700,000 available for other purposes during the next biennium.

The total sum of the three bond issues herein recommended is \$87 million. I am advised that after the bonds are issued about \$4,600,000 each year will be required for debt service on these bonds. If you find that this sum, together with the cost of the other additional items I have recommended in this message and other items which you may find necessary, cannot be financed with funds estimated to be available for the next biennium, then I call your attention to the statement made in my message to you on January 8 with reference to taxes.

CONCLUSION

I have previously stated, and I repeat, that I have complete confidence in your patriotic devotion to North Carolina. I present to you and to the people of North Carolina the clear-cut issue of some of the pressing needs of the State as I have outlined them in this message. I earnestly seek your support of this program which I feel is imperative to meet the requirements of a growing State during the next two years.

Our responsibility cannot be avoided. Near the beginning of the second fifty years of this Century we must not only use the talents and the tools which we have, but we must continue to increase our talents and our tools for the further sound development of North Carolina.

Senator Currie offers and reads the following resolution, commemorating William Thomas Bost, and orders it spread upon the Journal:

Mr. President and Members of the Senate:

For the past 30 years or so the people who have been coming to the General Assembly have been accustomed to seeing a friendly, genial man with reddish hair, strolling casually about the Legislative halls. That was William Thomas Bost, or Tom Bost. Everybody who knew him misses him. Everybody who did not know him is poorer for that reason.

He was ever busy with his typewriter describing the present scene and the people in it. He was to political news reporting in North Carolina what Douglas and Ousler are to the Bible stories. He gave political news in our State beauty and romance and body, and made it interesting. He wrote in a classical vein and in a style scriptural, caustic and biting, penetrating and inviting. Tom could debunk a hypocrit or praise a saint with such choice phraseology as would leave each of them flattered. No man ever admired Saint Paul, or Shakespeare, or Kipling more than Tom. No man ever enjoyed typing out what he imagined to be the mental maneuvers of Satan more than Tom.

He was a deeply religious man with an all embracing sense of humor. He frequently cast a sly vote in this Hall when he found a Bill to his liking, and was often sitting in the seat of an absent member. He was indeed a minister who preached his sermons from many pulpits and led in his prayers fervently wherever it seemed appropriate, a unique and lovable character, and always a builder of a better commonwealth in his column for his State.

I move you Sir, that when we adjourn today we do so by rising and that we adjourn in the memory of William Thomas Bost.

Upon motion of Senator Currie, the Senate adjourns in honor of the memory of William Thomas Bost, to meet tomorrow morning at 9:30 o'clock, at which time only Public Local bills will be considered, and adjournment will be until Monday evening at 8 o'clock.

Senator Larkins submits the following statement from the Governor in regard to S. B. 334, a bill to provide an emergency supplemental appropriation to the North Carolina Memorial Hospital Division of Health Affairs at the University of North Carolina, which is ordered spread upon the Journal.

Mr. President, Mr. Speaker and Members of the General Assembly:

The General Assembly has designated the North Carolina Memorial Hospital at the University in Chapel Hill as a continuing memorial to those North Carolinians who have given their lives, and who may hereafter give their lives, as members of the armed forces, in protecting the freedom and common welfare of their fellow citizens. Down through the years, it will become a great health center for all of the people of our State.

The beginning operation of the North Carolina Memorial Hospital has placed heavy responsibilities on the persons in charge and has presented

many difficult problems. The time of opening the Hospital was established many months ago on the basis of a conservative construction schedule set by the architects and builders. The appointments of faculty members to the Schools of Medicine and Nursing and the acceptance of students in these schools and of interns and residents for the Hospital were carried out according to this scheduled opening.

Unavoidable construction delays, chiefly due to the Korean War, took place after many faculty appointments were made and students accepted for the various programs. Consequently, the staff has been assembled and the student program scheduled for activation more rapidly than patient space was completed. It developed, therefore, that the new teaching and service programs were started in an incomplete hospital building with shortages of equipment. Beginning operation has accordingly been inordinately expensive.

The problems of construction, equipment and supplies, the recruitment of certain personnel, and the establishment of smooth-working operating programs in the presence of highly complicated teaching and research programs have made the activation of the North Carolina Memorial Hospital slower than had been hoped. Accordingly, total activation costs during 1952-53 will be greater than were anticipated.

The Hospital operating program to date and the projected program for the remainder of 1952-53 has been given intense study during the past few weeks by the University officials and Budget Bureau representatives. An emergency supplemental appropriation of \$341,155 will be necessary to cover the operating costs for 1952-53.

A bill, therefore, is being introduced in the Senate, entitled an act "to provide an emergency supplemental appropriation to the North Carolina Memorial Hospital Division of Health Affairs at the University of North Carolina." I recommend and request that this bill be approved by the Appropriations Committee and passed by the General Assembly without delay so that the necessary operating funds will be available for the remainder of the fiscal year 1952-53.

WILLIAM B. UMSTEAD,
Governor.

By Senator Larkins: S. B. 334, a bill to provide an emergency supplemental appropriation to the North Carolina Memorial Hospital Division of Health Affairs at the University of North Carolina.

Referred to Committee on Appropriations.

The following message is received from His Excellency, Governor William B. Umstead:

Mr. President, Mr. Speaker and Members of the General Assembly:

The State Educational Radio and Television Commission which was appointed pursuant to Joint Resolution No. 10, adopted at the beginning of this Session of the General Assembly, has filed with me a report of its activities and recommendations as provided for in Section 7 of said resolution. A copy of the report, embodying the recommendations of the Commission, is submitted to you for your consideration.

I recommend that necessary legislation be enacted to comply with the recommendations embodied in the Commission's report. A bill entitled "an Act to continue the North Carolina Educational Radio and Television Commission created by Joint Resolution No. 10 of the 1953 General Assembly to authorize counties and municipalities to contribute funds to said Commission and to appropriate twelve thousand dollars to said Commission for the biennium 1953-1955;" and, "a resolution requesting the Federal Communications Commission to continue its reservation of educational television channels in this State and to allocate additional educational television channels beyond those presently located in North Carolina," have been prepared for introduction in the Senate to accomplish this purpose and are being offered for your consideration.

Respectfully submitted,

WILLIAM B. UMSTEAD, *Governor.*

The message together with the report submitted is referred to the Committee on Education.

CONFERENCE REPORT

Senator Larkins for the Conferees appointed to consider the differences arising between the Senate and House of Representatives upon S. B. 11, a bill to make appropriations for the maintenance of the State's departments, bureaus, institutions, and agencies and for other purposes, submits the following report:

To the President of the Senate and the Speaker of the House of Representatives:

The Conferees appointed on behalf of the Senate and the House of Representatives to consider amendments to the Committee Substitute for S. B. 11 as adopted by the House of Representatives, after careful consideration, respectfully recommend that the House recede from its position with respect to said amendments and that the Senate and the House adopt the following amendments:

Amend Committee Substitute for S. B. 11 by adding a new Section between Sections 21 and 22 of the printed bill to be numbered Section 21½ reading:

"Section 21½. There is hereby appropriated from the General Fund of the State for the purpose of supplementing the salaries of public school teachers and other public school officers and employees the sum of two million, five hundred thirteen thousand and one dollars (\$2,513,001.00) for the fiscal year ending June 30, 1954, and the sum of two million, five hundred and thirty-five thousand, six hundred seventy-seven dollars (\$2,535,677.00) for the fiscal year ending June 30, 1955; and there is further hereby appropriated from the General Fund, the Agriculture Fund and the State Highway and Public Works Fund of the State for the purpose of supplementing the salaries of State employees paid from either such fund, respectively, such additional amounts as may be necessary to provide a supplement to salaries not in excess of 2½% of the base rates of pay at June 30, 1953; the appropriations hereinabove provided for are contingent and shall be paid at the end of each fiscal year only in the event that general fund revenues collected for each year shall exceed the following sums:

Fiscal Year 1953-1954	\$190,288,565.00
Fiscal Year 1954-1955	\$196,127,041.00

"If general fund revenues collected for the year 1953-1954 exceed the sum of one hundred ninety million, two hundred eighty eight thousand,

five hundred sixty five dollars (\$190,288,565.00) the aforesaid salary supplements shall be paid. If general fund revenues collected for said fiscal year do not exceed said sum of one hundred ninety million, two hundred eighty-eight thousand five hundred sixty-five dollars (\$190,288,565.00) no salary supplements hereunder shall be paid to any employees payable from any of said funds for said year.

"If general fund revenues collected for the year 1954-1955 exceed the sum of one hundred ninety-six million, one hundred twenty-seven thousand and forty-one dollars (\$106,127,041.00) the aforesaid supplement shall be paid. If general fund revenues collected for said fiscal year do not exceed said sum of one hundred ninety-six million, one hundred twenty-seven thousand and forty-one dollars (\$106,127,041.00) no salary supplements hereunder shall be paid to any employees payable from any of said funds for said year.

"The contingency salary supplements provided under this section shall not apply to the following:

(1) The salaries of officials and others fixed by statute and by the Governor and/or the Advisory Budget Commission.

(2) The salaries of officials and others excepted under the provisos of Section 21 of this Act.

"The contingency appropriations are for the purpose of supplementing the salaries of public school teachers, other public school officers and employees and other State employees who are full-time permanently employed or are on permissive leave without pay, or who are retired under the provisions of General Statutes 135, Article 1 and who are paid from appropriated funds of the State on June 30, 1954 for the fiscal year 1953-1954 or on June 30, 1955 for the fiscal year 1954-1955 or at the end of comparable school periods.

"The supplements to salaries provided for in this section shall be computed in even dollars on the basis of amounts earned during the respective periods and the base rates of pay for those not employed on June 30, 1953 shall be determined as that in effect on June 30, 1953 for like positions.

"Subject to the provisions of this Section, funds shall be made available to the departments, institutions and agencies of the State by the Director of the Budget in amounts required to pay supplemental salaries in accordance with this section.

"The provisions of this Section may be applied to supplement salaries paid out of special funds or from sources other than tax revenues, provided the necessary funds are made available from operations or from the sponsoring agents.

"The Director of the Budget is authorized, empowered and directed to allocate out of special operating funds under which personnel is employed the amounts sufficient to meet supplemental salary costs as provided herein, provided funds are available or furnished by the sponsoring agents.

Further amend Committee substitute for S. B. 11, Section 21, line 25 by inserting between the words "in" and "this" the words "this Section and Section 20 of".

Further amend Committee substitute for S. B. 11 by inserting in line 4 of Section 24 between the figure "21," and the word "and" the figure "21½".

Respectfully submitted,

JOHN D. LARKINS, JR.

S. M. BASON,

FRED S. ROYSTER,

Conferees on the part of the Senate.

J. K. DOUGHTON,

ROGER C. KISER,

LARRY T. MOORE, JR.,
